

Residential VIDEO SURVEILLANCE

Visit us online: www.shepherdcnyc.com

Be there even when your not.

Shepherd Communication and Security offers the best home video surveillance systems to keep your home and family safe. With a variety of systems to be installed at an affordable cost, our video surveillance is second to none. We offer single home security cameras or multi-camera kits. Our systems have the ability to stream live video over your secure internet to make viewing simple from any connected device. With indoor and outdoor cameras, night vision and motion sensing models, your home will be protected at any time of the day. Customize your security experience to meet your personal and unique needs.

Our experts at Shepherd Communication and Security are here to help you choose the exact equipment and features you need. Monitor activity at your home 24/7 and protect yourself from a number of threats. At Shepherd Communication and Security, we believe every house should be a comfortable retreat, safe for you and your family. With our residential video surveillance systems, we create that safe environment. Contact us today to learn more about our surveillance systems and how it can work to keep you and your home safe.
