

RESIDENTIAL SOLUTIONS

Visit us online: www.shepherdcnyc.com

As a home owner you understand the value of reliability, trust and quality work. When it comes to selecting a communications and security provider who aligns with those values; look no further then Shepherd Communication Security.

Protecting Your Way of Life

Having a Security, Fire, Surveillance or Access Control System installed by Shepherd C&S is an effective way for our customers to protect their families, homes and possessions. Whatever the requirements Shepherd can tailor a solution to meet those needs.

Products & Services Suited to Your Individual Needs

Shepherd C&S systems can be configured to monitor doors, windows, basements, garages and outside gates. They can detect smoke, heat, carbon monoxide, temperatures changes, and water levels and will alert you remotely 24 hours a day.

Insurance Savings

Insurance companies commonly offer discounts of 10% or more when premises are protected by electronic security systems. A Shepherd C&S security system is designed to protect your family and property whether you are on the premises or away.

Home Automation & Video Monitoring Systems

Shepherd's customized solutions allow the customer to monitor and control their security system components while away from home for added convenience and protection. Shepherd can install systems that let you check on loved ones, receive voice and email system reports and control lighting and environmental settings from your smart phone or tablet. In addition remote video monitoring can be installed allowing the customers premise to be monitored in real time right from your laptop, cell phone or other web-enabled device.
