Optimize Your Security Investment

Beyond installation of various protection systems, Shepherd Communication and Security also offers several other services to help your business be as protected as possible. We perform maintenance on your equipment and make sure it's running the way it should be. Preventative measures are taken to lessen the risk that a system may fail and we also offer training in products and services to help you get the most from your systems. Shepherd can manage video and offers remote video monitoring

so you can breathe easy, knowing someone is always watching out for you and your business. In the instance of phone line failure, Shepherd Communication and Security provides communication backup protection. We offer optional backup cell and/or radio communication to our customer center so you will never be left alone in a time of need! At Shepherd Communication and Security, we provide all of these services and more, making us the best choice for securing your commercial property and the people who work there. Contact us today to build a package of services that best fit your needs and take the initiative in protecting what you own.

We offer inspections and service on:

- Perimeter Alarms • Automatic Doors • Nurse Calls • Fire Alarms • Access Control • Surveillance Cams
